## January Newsletter

27 January 2020

Dear All,

Firstly, just a reminder of our day together on Healing on 7 March. A poster is on the [Diocesan website](#). There will be an introduction on the breadth of Healing in our lives and then workshops / healing groups praying about various specific areas where healing is needed. Throughout the day you can visit several groups as you discern your need to come to a greater wholeness.

The Advent Retreat went well and was thankfully a blessed weekend. You may have seen a report in the Northern Cross. Thank you to those who were able to come.

I hope your New Year is a blessing for you and your family. Many thanks to those who have kept members who are in poor health at this time in Prayer, they are extremely grateful and also thanks to those of you bringing your gift of Intercession to those in need. Thank you to those who keep me informed of need in our Family of Renewal and to those who have contacted me saying how much they appreciate being known and remembered. I too feel humbled and blessed that you feel able to contact me and gift me with that role on our behalf. That I feel is what we are about at the end of the day, sharing love, healing, and remembering Family in Christ. God with us - Emmanuel. This is why gathering together is important.

We still have not arranged a Mass for Healing on a Sunday as the feedback on the idea has not been forthcoming. If it is something you would like/need, please let us know.

We will keep you informed of any other news.

In Him, Pat
